INDIANA UNIVERSITY
THE UNIVERSITY GRADUATE SCHOOL

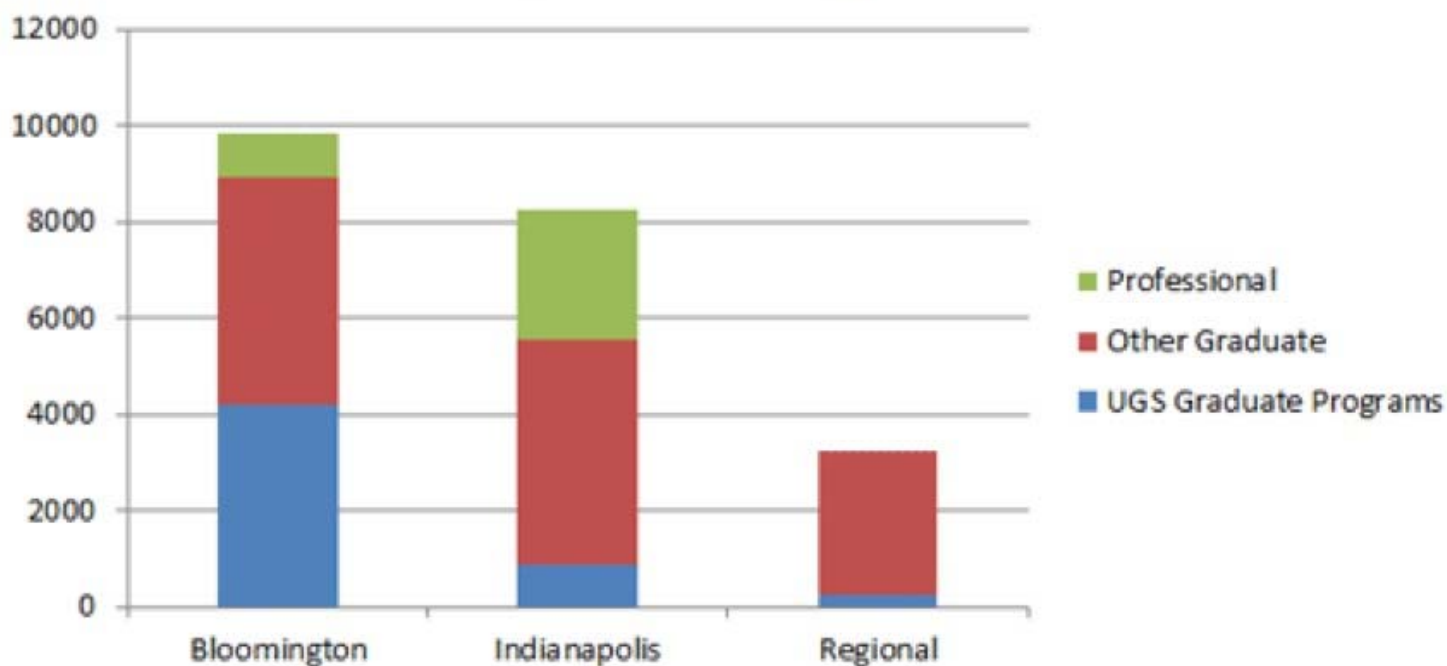

IU - Eight Campuses Statewide

- *Bloomington and Indianapolis are the largest campuses*
- *100,000 students total; 20,000 graduate students; 3,000 international*
- *> 200 graduate programs*
- *Doctoral programs in Bloomington and Indianapolis; other campuses have masters programs*

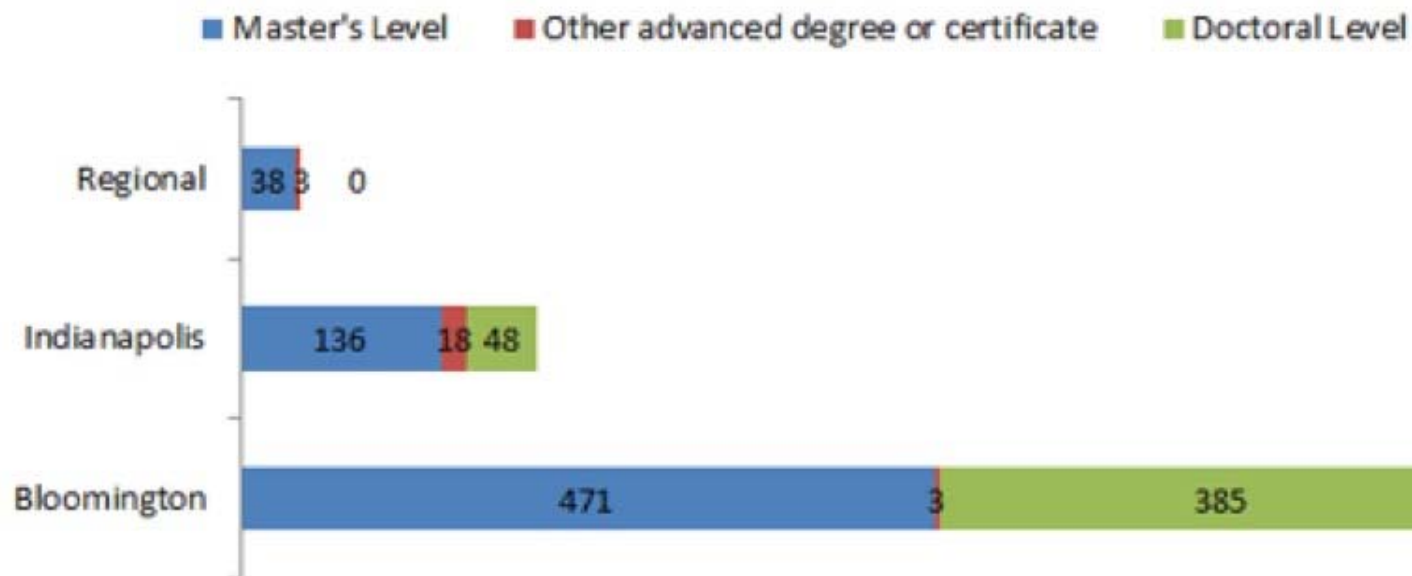

Graduate Enrollment

University Wide Graduate and Professional Student Enrollment, Fall 2009

Graduate Degrees Awarded

University Graduate School Degrees Awarded Between July 1, 2009 - June 30, 2010

Key Structural Drivers for Partnerships

- Graduate School is responsible for all PhD and some non-professional masters
- Dual “ownership” of programs and students
- Responsibility center budget model

A Sampling of Graduate School Partnerships

- Recruiting
- Retention
- Professional Development

Graduate School Partners

- Graduate Students
- Faculty
- Schools/departments
- Other university administrative units
- Regional/national organizations

STEM Initiative

A partnership between Indiana University and 11 Historically Black Colleges and Universities

"This program has the potential to provide significant benefits to the participating institutions, their faculty, and their students. It also has the potential to begin to address in a meaningful way the critical national need to increase the representation of minorities in science-related fields as demographic changes threaten our nation's ability to educate enough of its citizens for an information-based economy."

*Dr. Earl Richardson
President, Morgan State University*
